

NWear WD1 Watch and WD2 Wearable Scanner

Your wearable solution for warehouse and logistics applications

The WD1 GMS certified watch-style mobile computer for the wrist is hardly bigger than the well-known smart watches. However, the screen is large enough to display complex applications.

Combined with the WD2 wearable scanner, capable of standard and mid-range barcode scanning, it is the perfect solution for warehouse and courier express parcel applications.

Ultimate robustness, performance and productivity with maximum ease of use

- \ Ivanti Velocity pre installed
- \ Newland configuration suites and Ndevor MDM solution
- \ IP67
- \ 13 megapixel camera – which can also scan 1D and 2D barcodes
- \ 4G, Wi-Fi, BT 5.0
- \ Scan to pair for connection to WD2 wearable 2D scanner
- \ WD2 optional mid range or standard range scan engine

Features and benefits

Investment protection

- \ Newland supplies the WD1 and WD2 with a standard 2 year warranty.
- \ Comprehensive charging accessories for the WD2 scanner.
- \ Own MDM system for endpoint management and EasySet for scanner configuration.

GLOBAL LEADER

Newland EMEA (Newland Europe BV) was founded in 2009 in the Netherlands. The established AIDC world presented 1D (barcode) and 2D (two-dimensional codes) scanners as a complex and exclusive technology. Dedicated to making these devices accessible to businesses of all shapes and sizes, we set out to make scanning simple. Newland Digital Technology Co. Ltd. specializes in the technological research and development, manufacturing and product management of data collection, mobile communication and payment devices.
